5.3 Special prote	5.3 Special protective actions for fire-fighters:		
	Wear full body protective clothing with breathing apparatus. Prevent, by any means available, spillage from entering drains or water course. Use water delivered as a fine spray to control fire and cool adjacent area. Avoid spraying water onto liquid pools. <b>DO NOT</b> approach containers suspected to be hot. Cool fire exposed containers with water spray from a protected location. If safe to do so, remove containers from path of fire.		
Fire / explosion	Contains low boiling substance: Closed containers may rupture due to		
hazard	pressure buildup under fire conditions. Non flammable liquid, however vapour will burn when in contact with high temperature flame. Ignition ceases on removal of flame. May form a flammable or explosive mixture in an oxygen enriched atmosphere Heating may cause expansion/vaporization with violent rupture of containers. Decomposes on heating and produces corrosive fumes of hydrochloric acid, carbon monoxide and small amounts of toxic phosgene.

Minor spills	Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Allow to evaporate. Isolate area until gas has dispersed. Avoid breathing vapours and contact with skin and eyes. Ventilate area of leak or spill. Wear appropriate personal protective equipment.		
Major spills	Contain and recover liquid when possible. Do not let product enter drains. Collect		
	liquid in an appropriate container or absorb with an inert material (e. g., sand, silica		
	gel, acid binder, universal binder, sawdust) and place in a chemical waste		
	container. Do not flush to sewer.		
Personal Protect	tive Equipment advice is contained in Section 8.

Avoid contact with skin and eyes. <b>DO NOT</b> allow clothing wet with material to stay in contact with skin. <b>DO NOT</b> enter confined spaces until atmosphere has been checked. <b>DO NOT</b> eat, drink or smoke. Observe manufacturer's storage/handling recommendations contained within this SDS.			
Other information	Store in original containers. Keep containers securely sealed. Store in a cool, dry, well-ventilated area. Observe manufacturer's storage and handling recommendations contained within this SDS. Keep out of reach of children.
